

ABHI GOLHAR

Abhi Golhar stands as a guide for leaders and teams seeking clarity in a world of constant pressure. **With 15 years of real estate, entrepreneurship, and scaling lean ventures,** he helps audiences harness AI and constraints to unlock creativity, reduce overhead, and deliver higher impact with less.

ABHI'S MESSAGE IS CLEAR:

Constraints are not barriers. They are opportunity zones for innovation. Abhi shows that doing more with less is not about cutting corners. It is about using AI to automate what drains time, sharpening what works, eliminating what does not, and pouring energy into levers that scale impact. His keynote *The Efficiency Edge* delivers a clear system for using scarcity and AI to drive focus and results.

“**THE CLASS WAS EXACTLY THE MESSAGE WE WERE LOOKING FOR.**”

I talked to at least eight members that were very impressed and wanted to use what Abhi taught as soon as possible.

DEREK BINSFIELD
M.Ed, Professional Development Director, OKC Metro Association of REALTORS®

THE KEYNOTE

ABHI GOLHAR THE EFFICIENCY EDGE

How Leaders and Teams Can Drive Breakthroughs Under Constraints with AI

In this keynote, Abhi outlines how organizations succeed not when they have all the resources, but when they learn to thrive with fewer. He walks through tactics to identify core priorities, use AI to multiply human effort, say no without regret, and build systems that scale small wins into large gains. Audiences leave equipped to stretch their resources, cut the clutter, and deliver meaningful results with AI as a trusted ally.
